AGRICULTURAL AND FOREST METEOROLOGY

Contents of Volume 90, 1998

VOL. 90, NOS. 1–2 — 1 MARCH 1998

On using eco-physiological, micrometeorological and biogeochemical theory to evaluate carbon dioxide, water vapor and trace gas fluxes over vegetation: a perspective
D. Baldocchi, T. Meyers . . . 1
Modeling temperatures in soil under an opaque cylindrical enclosure
A.D. Matthias, A.R. Peralta Hernández . . . 27
ENSO, seasonal rainfall patterns and simulated maize yield variability in Zimbabwe
J.G. Phillips, M.A. Cane, C. Rosenzweig . . . 39
Spatial scales of climate information for simulating wheat and maize productivity: the case of the US Great Plains
W.E. Easterling, A. Weiss, C.J. Hays, L.O. Mearns . . . 51
Comparison of water transfer as a component of the energy balance in a cultivated grass (*Brachiaria decumbens* Stapf.) field and a savanna during the wet season of the Orinoco Llanos
J.J. San José, R. Bracho, N. Nikonova . . . 65
Daily actual evapotranspiration measured with TDR technique in Mediterranean conditions
M. Mastrorilli, N. Katerji, G. Rana, B. Ben Nouna . . . 81
A temperature-based model of direct-, water-seeded rice (*Oryza sativa*) stand establishment in California
B.P. Caton, T.C. Foin, K.D. Gibson, J.E. Hill . . . 91
Calibration of grey values of hemispherical photographs for image analysis
S. Wagner . . . 103
A new technique for determining the thermal parameters of phenological development in sugarcane, including suboptimum and supra-optimum temperature regimes
D.L. Liu, G. Kingston, T.A. Bull . . . 119
Air and soil microclimates of deciduous woodland compared to an open site
M.D. Morecroft, M.E. Taylor, H.R. Oliver . . . 141

VOL. 90, NO. 3 — 10 APRIL 1998

Annual cycle of photosynthetically active radiation in maritime pine forest
P. Hassika, P. Berbigier . . . 157
Ground-based spectroradiometric estimation of live fine fuel moisture of Mediterranean plants
J. Piñol, I. Filella, R. Ogaya, J. Peñuelas . . . 173
A prism-based system for monitoring the swaying of trees under wind loading
A. Hassinen, M. Lemettinen, H. Peltola, S. Kellomäki, B. Gardiner . . . 187
Footprint climatologies for evapotranspiration in a boreal catchment
B.D. Amiro . . . 195
Relationship between weather variables in observed and WXGEN generated data series
H.N. Hayhoe . . . 203
Three dimensional model of the interception of light by a canopy
F. de Castro, N. Fetcher . . . 215
Studies on the relationship between yield and meteorological parameters of para rubber tree (*Hevea brasiliensis*)
P. Sanjeeva Rao, C.K. Saraswathyamma, M.R. Sethuraj . . . 235
Volatile organic compound emissions from young black spruce trees
D. Fulton, T. Gillespie, J. Fuentes, D. Wang . . . 247

VOL. 90, NO. 4 30 APRIL 1998

Inconsistencies in net radiation estimates from use of several models of instruments in a desert environment
W.P. Kustas, J.H. Prueger, L.E. Hipps, J.L. Hatfield and D. Meek 257
Ammonia emissions from fields treated with green manure in a Mediterranean climate
G. Rana and M. Mastrorilli 265
Transpiration from coppiced poplar and willow measured using sap-flow methods
R.L. Hall, S.J. Allen, P.T.W. Rosier and R. Hopkins 275
Forest–atmosphere carbon dioxide exchange in eastern Siberia
D.Y. Hollinger, F.M. Kelliher, E.-D. Schulze, G. Bauer, A. Arneth, J.N. Byers, J.E. Hunt, T.M. McSeveny, K.I. Kobak, I. Milukova, A. Sogatchev, F. Tatarinov, A. Varlargin, W. Ziegler and N.N. Vygodskaya 291
Nitric oxide soil emissions from tilled and untilled cornfields
K.L. Civerolo and R.R. Dickerson 307

Contents of Volume 90, 1998 313
